Education

KIET Group of Institutions, Delhi NCR
Bachelor of Technology in Computer Science
Ghaziabad, India

Sept 2023 – June 2027
SGPA: 8.275

Shri Ram Public School (CBSE)
High School

June 2019
90.60%

The CMS (CBSE)
Intermediate

August 2021
79.60%

Experience

Welwart Pharmaceuticals Pvt. Ltd.
Software Engineering Intern (Backend + DevOps)

May 2026 – Aug 2026

- **Developed** and maintained scalable **RESTful APIs** using **Node.js**, **Express.js**, and **MongoDB** for doctor management, DCR, attendance, expense, tour planning, and other business-critical modules.
- **Designed** and optimized **MongoDB schemas**, implemented secure **JWT authentication** with **Role-Based Access Control (RBAC)**, and built backend services for attendance, leave, expense approval, and performance management workflows.
- **Built** reporting and analytics features using **MongoDB aggregation pipelines**, enabling filtered data retrieval, dashboard metrics, and operational insights to support business decision-making.
- **Assisted** in application deployment, server configuration, **CI/CD workflows**, and production monitoring, improving system reliability, maintainability, and scalability.

Projects

Self-Healing Distributed Cache — GitHub (Self)
Docker, Prometheus, Grafana, GitHub Actions, Node.js, Express.js, React.js

Jun 2026 – Jul 2026

- **Engineered** a fault-tolerant **distributed caching system** with **consistent hashing**, **virtual nodes**, and **data replication** to ensure high availability and minimal key redistribution during cluster scaling.
- **Implemented** automatic **node health monitoring**, heartbeat-based failure detection, **self-healing recovery**, and cluster rebalancing to maintain service availability during node failures.
- **Integrated** scalable **RESTful APIs**, an interactive **React dashboard**, and real-time observability using **Prometheus** and **Grafana** for cluster management and performance monitoring.
- **Automated** application deployment with **Docker Compose**, established **CI/CD** using GitHub Actions, and developed comprehensive documentation and testing to improve maintainability and deployment reliability.

AI Codebase Chat Assistant - (RAG System) — Live (Self)
Node.js, Express.js, React.js, LangChain, Pinecone, OpenAI API

Jan 2026 – Feb 2026

- **Engineered** a **RAG-based assistant** that enables developers to query **GitHub codebases** using **natural language** by implementing **AST-based code parsing**, chunking, and **semantic search**.
- **Implemented** a **vector search pipeline** with **metadata filtering**, **re-ranking**, and **streaming responses** to retrieve relevant code snippets and improve retrieval accuracy for real-time conversations.
- **Designed** scalable **Node.js backend APIs** for **code ingestion**, embedding generation, query processing, and seamless integration with the **OpenAI LLM** to deliver contextual code explanations.

DevScope — Live (T-2)
React.js, Node.js, Express.js, Supabase, Recharts, OpenAI, GitHub GraphQL API

Dec 2024 – Feb 2025

- **Developed** a **GitHub-powered portfolio builder** using **OAuth2** and the **GitHub GraphQL API** to fetch repositories and developer activity.
- **Integrated OpenAI GPT-4** to generate developer summaries and **reduced** profile creation time by **50%**.
- **Created** interactive dashboards with **Recharts** and responsive UIs using **Tailwind CSS**, serving **50+ users** with **80% positive feedback**.

Technical Skills

- **Programming Languages:** Java, JavaScript, C
- **Technologies:** Node.js, Express.js, React.js, HTML, CSS, Tailwind CSS, MongoDB, MySQL, Pinecone
- **DevOps & Cloud:** Docker, Docker Compose, Git, GitHub, GitHub Actions (CI/CD), Prometheus, Grafana
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (Java), DBMS, Computer Networks, REST APIs, Distributed Systems, Consistent Hashing, RAG, Vector Search

Achievements/Recognition

- **Winner** of INNOTECH (at Department Level)
- **Finalist** in DevNexus 2025 (Top 5 teams out of 300+ submissions)
- **Leetcode Solved 600+ problems, (Max rating 1829)**
- **CodeChef Solved 150+ problems, (Max rating 1300)**
